EARLY SPRING (440) (Baerman-Wagner 1960) (Innocence x Rosita). 65 days. This tall, fresh, cool light pink rivals Friendship in earliness and is more of a bridesmaid's pink. Cut-flower growers who have seen this have been enthusiastic about its prospects.

SUNNYDALE (416) (Baerman-Weeks 1961) (Golden Sunshine x Prospector). 95 days. This classy, lacy medium-deep yellow has spikes fully 60 inches tall with up to 25 buds—unusual for a yellow. An excellent cut flower. Strongly recommended.

YELLOWJACKET (316) (Baerman-Wagner 1961) (Sparkler x Ares). 85 days. The originator considers this one of his top introductions. With up to 12 intensely ruffled 3½-inch florets open at one time and with brilliant scarlet blotches enhancing the golden yellow color, it is as gaudy as a Roman holiday. The ribbon spikes are simply superb for arrangements. Yellowjacket has 24 buds, is 60 inches tall. Even large bulblets make beautiful spikes; picture shows a spike from a No. 6 bulb. Stock this if you want a show winner!

Any size, each \$4.00. One bulb and 10 bulblets for \$7.50. No bulblets sold separately.

ROSE PARADE (454) (Baerman-Weeks 1961) (Innocence x Rosie O'Grady). 70 days. Another lovely ruffled true rose from the same cross that produced the very popular Alpenrose. A little deeper and richer in

color than the latter and more of a self. Early and should be an excellent cut flower. Fine propagator.

Large, each \$2.00. Medium, each \$1.50. Small, each \$1.00. 10 bulblets \$2.00. Grower's Unit: 1 large, 2 medium, 5 small and 50 bulblets for \$12.50.

MYSTIC MELODY (460) (Baerman-Weeks 1961) (Caribbean x Nordic Queen). 90 days. This comes from the same cross as Lilac & Chartreuse but is lavender instead of blue-lilac and has a huge golden throat and upper-petal splashes of rich canary-yellow instead of chartreuse. Each of these novelties is quite distinct and each has an important place for fanciers seeking extraordinary color combinations. Mystic Melody is somewhat the larger of the two. Truly an outstanding novelty. The very limited stock necessitates our price.

Large, each \$4.00. Medium, each \$3.00. Small, each \$2.00. No bulblets this year.

ROSE FESTIVAL (454) (Baerman-Majeski 1961). 90 days. This sparkling cerise-rose with snowy throat differs markedly from our last year's introduction, Alpenrose. Women are especially attracted to this unusual color, so difficult to obtain in Glads. Rose Festival should prove an excellent cutter.

Large, each \$2.00. Medium, each \$1.50. Small, each \$1.00. 10 bulblets \$2.00. Grower's Unit: 1 large, 2 medium, 5 small and 50 bulblets for \$12.50.

GOLDEN ROSETTE (416) (Baerman-Majeski 1961) (Golden Sunshine x Prospector). 95 days. This is the tallest and largest yellow from this originator. We have had it 72 inches tall with as many as 11 beautifully ruffled, wide-open, waxy florets open at a time on 21-bud spikes. Golden Rosette is a tremendously impressive yellow destined for great popularity. Strongly recommended.

Large, each \$2.00. Medium, each \$1.50. Small, each \$1.00. 10 bulblets \$2.00. Grower's Unit: 1 large, 2 medium, 5 small and 50 bulblets for \$12.50.

CLIMAX (450) (Baerman-Majeski 1961) (Innocence x Caribbean). 85 days. This ultra-regular rose-pink with beautiful round florets shares a trait found in many prime cut-flower varieties; bulbs of the same size all bloom simultaneously, making a row an impressive sight and facilitating quick cutting. 23 buds; 63 inches tall.

Large, each \$2.00. Medium, each \$1.50. One large and 10 bulblets for \$4.00. Grower's Unit: 1 large, 2 medium, 3 small and 50 bulblets for \$12.50.

BLUE RIBBON (370) (Baerman-Majeski 1961) (Innocence x Caribbean). 80 days. This 24-bud medium-light blue opens a real ribbon of bloom on spikes about 60 inches tall. Its spire-like flower heads remind one of Delphiniums and it should be a good Glad to plant in groups among perennials. Blue Ribbon is wholly free from flecking.

Large, each \$1.00. Medium, each 75c. Small, each 50c. 20 bulblets for \$1.00. Grower's Unit: 1 large, 2 medium, 5 small and 100 bulblets for \$7.50.

GOLIATH (534) (Baerman-Majeski 1961) (Royal Stewart x Southern Belle). 80 days. This enormous deep salmon-pink was chosen Champion Seedling at the Western International Glad Show at Sumner, Washington, in 1961. We counted spikes with 10 six-inch blooms open at once out of a total of 26 buds (many in color), with the entire row of large bulbs in bloom at once with ramrod spikes 66 inches tall. A natural for grand-champions at shows!

Large, each \$2.00. Medium, each \$1.50. Small, each \$1.00. 50 bulblets \$8.00. Grower's Unit: 1 large, 2 medium, 5 small and 50 bulblets for \$14.00.

HIGH FASHION (460) (Baerman-Majeski 1961) (Emperor x Maytime). 90 days. Another 66 inch variety which we had hoped to name "Skyscraper." Good lavenders are scarce and this clean true lavender self should prove an excellent cutter because of its exemplary habits. Nicely ruffled.

Large, each \$1.50. Medium, each \$1.00. One large and 50 bulblets for \$6.00. Grower's Unit: 1 large, 2 medium, 3 small and 50 bulblets for \$10.00.
